
2.L-2007 Dr. David Lawless Award for Scholarly Achievement

1. Purpose

This policy will provide the St. Mary's University Board of Governors, administration and faculty of the University with the general criteria, procedures and definitions for the awarding of the Dr. David Lawless Award for Scholarly Achievement (the "Award") at the St. Mary's University Convocation ceremonies.

This Award is made possible by the generous donations of Dr. David Lawless, President Emeritus, St. Mary's University.

2. Definition

Research and scholarship are expected of all faculty. Research and scholarly activity are defined as creative, intellectual works which are in the public realm and which have been subjected to peer review. This includes artistic work, exhibitions and performances presented in peer-reviewed venues.

The intention of the Award is to supplement travel to conferences, purchase of research equipment or materials, hire of research assistants, or otherwise to provide support to research work or publication of the recipient.

3. Criteria and Eligibility

Nominations are open to full-time faculty at St. Mary's University and in recognition of scholarly research published in peer-adjudicated articles, monographs and books accepted by established publishers and major submissions to national granting councils whether or not these have been accepted (in recognition of the demanding preparatory work required for a major submission).

The Award may be jointly awarded and divided when more than one researcher/scholar is involved in collaboration.
